

Plan # MBI022-09374

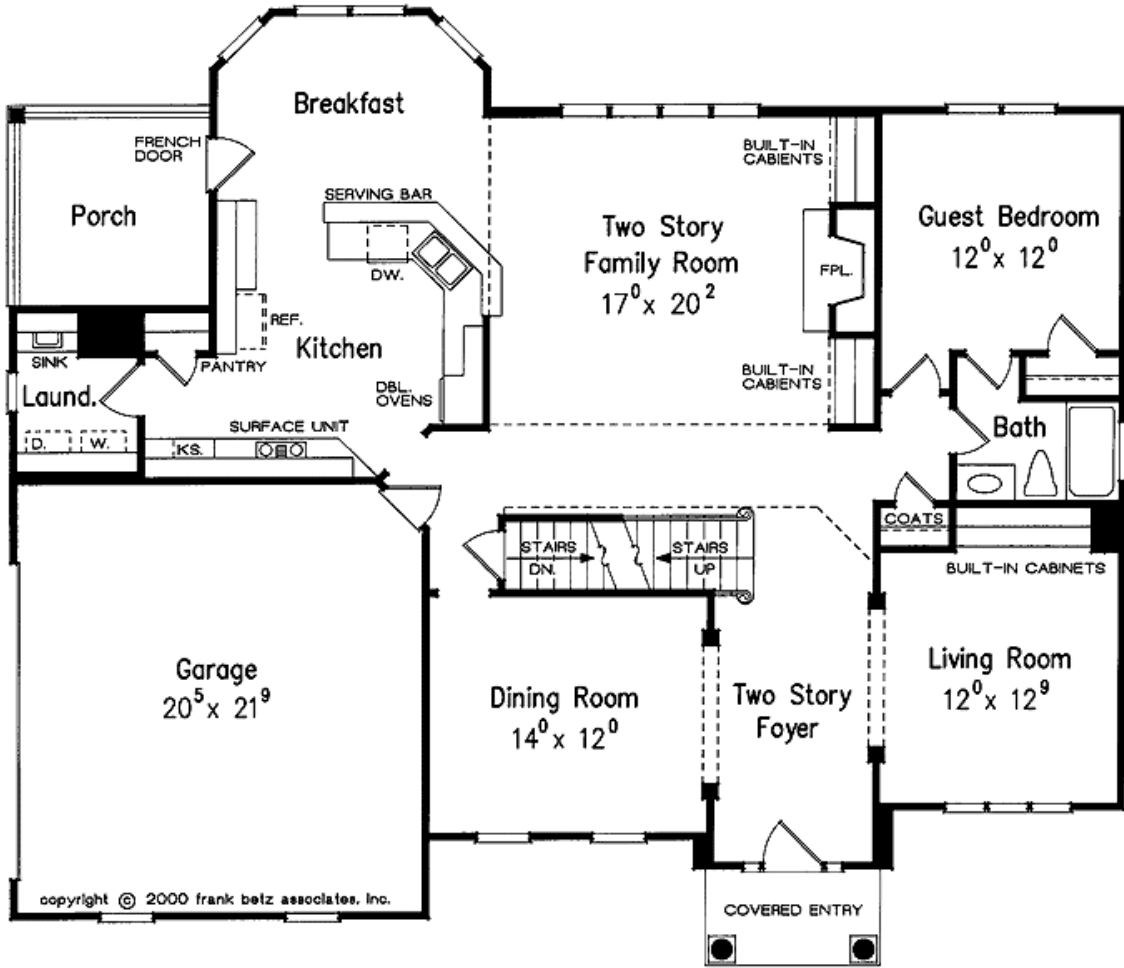

House Plan Details

This handsome Georgian Colonial combines the classic look of siding with stately brick for an unforgettable home. From the covered entry, the two-story foyer opens to formal rooms at either side. An overlook from above defines the two-story family room, emphasized by tall radius windows. A fireplace here can be viewed from the angled kitchen and bayed breakfast nook. The guest room is designed for privacy. Three upper-level bedrooms (one with a private bath) are full of natural light. The master suite invokes a unique spirit with a bayed sitting area, private porch and exquisite bath.
